Ebtesam Mohamed ELGIZAWY

(born October 1, 1982) is a visual architect and landscape designer with over 10 years' experience in solid academic qualifications and art practicing. In 2004, she received a Bachelor of Arts degree from the Faculty of Fine Arts, Helwan University, Zamalek, Cairo, Egypt and she acquired her master degree (M.Sc.) and obtained her Ph.D. degree from the same university. In 2015 she achieved national recognition when she won the Ideal Thesis Award for her creative use of Technology in Architecture. Now then notable international recognition when she received a TAMAYOUZ international award for her outstanding design entry for the living pedestrian bridge over the Nile River in 2020.

ELGIZAWY creates one-of-a-kind, in both fields; contemporary fine art and conceptual approach in architectural design with a complex variety of mediums. The extraordinary thing about her work is her ability to deliver unique ideas depending on publishing research which makes her work has always had a philosophy and mystery stories behind it. ELGIZAWY has contributed in various art events and honored in many prestigious international architectural competitions. She is known for her nature inspiration artworks and she is also well known for her environmentally themed works which she got from her solo exhibitions; *Global Warming Vs. Local Warning* and *Carbon Footprint*.
